(54) LIQUID FUEL REGENERATING COLORED FLAME

(57)Abstract:

PURPOSE: To obtain a liquid fuel readily ignitable, stably combustible, generating stable colored flame, by blending a liquid fuel containing a specific lower alcohol, generating colored flame, with a specific amount of water.

CONSTITUTION: (A) A liquid fuel containing a 1-4C lower alcohol such as methyl alcohol, ethyl alcohol, propyl alcohol or butyl alcohol, generating colored flame, is blended with (B) ≤ 15 wt.% water to give the objective liquid fuel. A liquid such as a boric ester having compatibility with an organic solvent is usable as a coloring agent in an arbitrary blending ratio.
